A Visit to The NORWOOD High School.

We visited the Norwood High School Wed. and were much impressed by the excellent discipline, studious habits of the pupils, thorough work and interesting recitations.

We are proud of the fact that the Norwood school is doing the best work in all the history.

Pupils have no advantages that were never offered before.

The head of our school is directed by a professor of superior training and ability, who is building up one of the best High Schools in this part of the State.

Aside from his noble qualities, he is a natural educator and worthy the praise which he receives.

Young men, young women, take advantage of opportunities.

The children of Norwood are awake to the fact that they have the best faculty in the period of the school. The studious habits of the pupils show that they appreciate the excellent instruction they are receiving.

Let the good work go on until the Norwood School stand the model of its kind in the County.

-A Visitor.

To All Who it May Concern.

This is to certify that about 2 months ago I left the Colours people, brother Garrett, advising me to stay and be a good boy. But I left against his will. A short time ago I came back and while here I did not in every respect conduct myself as a Christian, and I have come back again to live right and do right. That no one may lay any blame on brother Garrett and the Colours people for any thing I have done, I wish to say to the public that to my knowledge they are doing all they can to live Christian lives, and now if I have wronged any one, that I have failed to make right, I will recompense seven fold because I am now determined to live a Christian life.
